

Z346 Manual Colour Inspection Gauge (powered by X-Rite®)

Torus' Z346 manual colour inspection gauge powered by X-Rite®.

The Z346 is capable of inspecting 202-300 body diameter, straight walled and finished cans with minimal change parts. Providing direct correlation to Torus' Z345 automatic colour inspection system, the Z346 boasts an easy to use platform for the inspection of multiple decorations, giving you direct data transfer into your chosen SPC package.

Benefits to your business

- Quantifiable colour measurement
- Delivers fast, reliable, accurate colour inspection of the decorated aluminium or steel beverage can
- Provides complete L*, a*, b*, Ecmc, E2000 and E94 data for full traceability
- Early warning limits meaning decorators can be adjusted before colours go out of tolerance
